For more information on our new PAX test, scan the QR code

Allergic pets can be difficult and frustrating to manage for clinicians and pet owners.

The gold-standard for managing allergic patients involves a multi-modal approach incorporating the use of symptomatic medications alongside topical therapy to help hydrate and soothe the skin, restore skin barrier function, wash allergens off the coat and maintain a healthy skin microbiome.

As part of our **Allergy Awareness campaign**, Nextmune UK are offering clients a choice of Allergy Essentials Packs, giving them free adjunctive topical therapy when purchasing a PAX allergy test or screen for dogs or a Nextlab test or screen for cats.

To claim your Allergy Essentials Pack: Tick the appropriate box on the serum test submission form

### Allergy Essentials Gold - Worth £200

Buy a Complete Environmental & Food Test and the owner gets a selection of free Nextmune allergy management products worth £200.00

### Allergy Essentials Silver - Worth £100

Buy a Complete Environmental Test and the owner gets a selection of free Nextmune allergy management products worth £100.00

### Allergy Essentials Bronze - Worth £50

Buy a Environmental & Food Screen and the owner gets a selection of free Nextmune allergy management products worth £50.00

To claim an Allergy Essentials Pack for your client, simply tick the appropriate box on the serum test submission form found in the Sample Submission Box. Place the form in the box with the serum sample and return it via the pre-paid envelope.

The products will be posted back to the clinic with the name of the client included.
