

Nextmune Lunch & Learn Programme

Nextmune UK are leaders in topical dermatological products, allergy testing, immunotherapy and specialised nutrition. If you are looking to improve your knowledge in how to better manage common skin and ear problems, then we offer a range of useful and informative lunchtime or evening CPD topics delivered by our highly trained team.

Topics covered include:

- **The Role of Ear Cleaning in Managing Common Ear Cases** (Identifying which cleaner to use based on clinical presentation - 60-90minutes)
- **Practical Cytology Training** (hands-on cytology training session - minimum 2 hours)
- **Interactive Cytology Training** (Using Cytology to manage skin and ear disease - how to sample, what to look for, interpreting results to form a diagnosis and treatment plan - 60-90minutes)
- **Managing Resistant Ear Cases** (looking at biofilm management and long-term therapy options - 60-90minutes)
- **Managing Fungal Skin and Ear Disease** (using topical therapy to reduce the frequency of recurrent fungal skin and ear problems - 60-90minutes)
- **Managing the Allergic Dog** (A look at the multi-modal approach and how topical therapy can be used alongside symptomatic therapy - 60-90minutes)
- **Allergy Testing and the Multimodal Approach** (Understanding why and when to allergy test and using the results to form a treatment plan - 60-90minutes)
- **Allergy Testing and Immunotherapy** (Understand how allergy testing can be used to utilise Allergen Specific Immunotherapy - 60-90minutes)
- **Managing Dental Disease** (Helping owners better manage their pet's teeth - 30 minutes)
- **Wound Management** (Looking at new therapeutic options for wound management - 30 minutes)
- **The Role of the VN in Managing Allergic Skin Disease** (how VN's can support vets in working up and treating dermatology cases)
- **Reducing Antibiotic Usage in Practice** (looking at steps that can be taken to help in the fight against antibiotic resistance - 60-90minutes)
- **Reception Staff Training** (Looking at how to up-sell a range of OTC products - 60-90minutes)
- **Skin Barrier in Allergic Patients** (Using natural dermocosmetics to help maintain barrier function - 60-90minutes)

To book a session on one of these topics, please email: vetenquiries.uk@nextmune.com
