

Ear Cleansers & Flushes

Otoprof

- Deep cleansing foaming ear wash for dogs to remove heavy wax accumulations
- For use under GA or sedation
- Rinse out after use
- In-clinic use only

Otodine

- Tris EDTA & Chlorhexidine 0.15%
- Pre-treatment and maintenance
- Antibacterial & antifungal
- Potentiates other topical medications
- Non-irritant, non-oily water based solution
- Use daily before applying medicated drops and 2-3 times a week ongoing

Clorexyderm Oto

- Antifungal maintenance cleanser to help manage yeast overgrowth
- Ceruminolytic, acidifying & drying action
- Ideal for swimming dogs
- Non-irritant, non-oily water based solution
- Use 2-3 times a week to maintain healthy ears

Otoact

- Squalene based ceruminolytic ear cleanser
- For routine cleansing and wax removal in pets prone to wax build-up
- Pleasant fragrance
- Non-irritant, soothing action
- Use 1-2 times a week or as needed to keep the ears clean

Before-X

- Sterile Tris-EDTA solution
- Potentiating action
- Can be used as a base for adding other topical solutions
- Not for long-term maintenance use
- Non-irritant, water-based solution

Tris-NAC

- Tris-EDTA & N-Acetylcysteine flush
- To help break down bacterial and fungal biofilm
- Helps to stop biofilm reforming
- Clean the ear first
- Allow to sit in the ear canal for 5-10 minutes before removing excess and applying follow-up drops

Peptivet Ear Drops & Oto Gel

- Unique peptide-based ear solution and gel
- Antibacterial and antifungal
- Soothes the ear and helps reduce redness and itch
- Ideal for ears where there is mild - moderate overgrowth of bacteria and yeast and where antibiotics may be unnecessary or inappropriate
- Clean the ear first, use daily for 14 days then 2-3 times a week ongoing

Topical Skin Range

CLX Wipes

- Easy to use antibacterial and antifungal cleansing wipes containing Chlorhexidine, Tris EDTA & Climbazole
- Soothing and moisturising
- For skin folds, interdigital spaces, lip folds and other localised areas
- Use 1-2 times a day for 2 weeks then ongoing as necessary
