

# Clorexyderm Skin Range

Antibacterial,  
Anti-Fungal  
Shampoo,  
Spray & Foam

# Clorexyderm<sup>®</sup> shampoo

*Clorexyderm 4% Shampoo is an antibacterial / antifungal cleansing shampoo containing 4% chlorhexidine digluconate. It helps manage bacteria and yeast on the skin and cleanses the coat. Lanolin and Glycerin help moisturise the skin and soothe redness and itch. It has a short 5-minute contact time to improve owner compliance. Clinically proven and Dermatologist recommended. Suitable for dogs, cats and horses.*

## Composition:

- **Chlorhexidine 4%**– antibacterial and anti-fungal at 4% concentration
- **Glycerin** - moisturising and soothing
- **Lanolin** - is soothing, calming known for its emollient and antibacterial properties.
- **Propylene glycol** - moisturising

## Uses:

- For animals with bacterial and fungal skin problems
- Can be used in conjunction with Clorexyderm 4% Foam or Spray for daily management of the skin

## How to use

- Wet the skin and coat of the animal with lukewarm water.
- Apply the product and massage
- Leave for 5 minutes and then rinse well. Towel dry.
- Repeat 2 – 3 times a week initially, and then use as required.

Before

After

Available in 200ml and 1L bottles

# Clorexyderm<sup>®</sup> spray

*Clorexyderm 4% Solution Spray is an antibacterial / antifungal easy-to-use spray containing 4% chlorhexidine digluconate. It helps manage bacteria and yeast on the skin. Lanolin and Glycerin help moisturise the skin and soothe redness and itch. Ideal for localised skin areas, the easy-to use spray can be used when shampooing is difficult or unnecessary. Clinically proven and Dermatologist recommended.*

## Composition:

- **Chlorhexidine 4%**– antibacterial and anti-fungal at 4% concentration
- **Glycerin** - moisturising and soothing
- **Lanolin** - is soothing, calming known for its emollient and antibacterial properties.
- **Propylene glycol** - moisturising

## How to use

- Shake well
- Spray directly onto the affected area
- Do not rub in. Leave to dry
- Repeat 1-2 times a day

## Uses:

- Clorexyderm Spray can be sprayed onto the affected area without the need for wet bathing
- Easy-to-use for localised skin areas where wet bathing may not be necessary or is difficult
- Ideal for daily use on the skin
- Use in-between baths with Clorexyderm Shampoo
- For frequent use

# Clorexyderm<sup>®</sup> foam

*Clorexyderm 4% Foam is an antibacterial / antifungal easy-to-use foam containing 4% chlorhexidine digluconate. It helps manage bacteria and yeast on the skin and cleanses the coat. Lanolin and Glycerin help moisturise the skin and soothe redness and itch.*

*Ideal for localised skin areas, the easy-to use foam can be used when shampooing is difficult or unnecessary. Dermatologist recommended.*

## Composition:

- **Chlorhexidine 4%**– antibacterial and anti-fungal at 4% concentration
