

Stomodine-F[®]

Easy-To-Use
Dental Gel For
Dogs & Cats

Stomodine-F

Stomodine-F is an easy-to-use antibacterial / soothing gel to help maintain healthy teeth and gums in dogs and cats.

Stomodine-F contains Chlorhexidine and Tris EDTA to help manage bacteria that cause plaque build-up and bad breath. Phytosphingosine and Safflower Oil combine to soothe the gums and quickly reduce redness.

Stomodine F has an artificial meat flavouring that increases palatability and makes it easier to apply than conventional toothbrushing.

Composition:

- **Chlorhexidine 0.07%** - antibacterial
- **Tris EDTA-** potentiates the activity of chlorhexidine and breaks down bacterial biofilm (plaque)
- **Phytosphingosine** - reduces redness and swelling
- **Safflower Oil** - soothing
- **Artificial meat flavouring** - safe to use in food allergic animals

Uses:

- To help slow down the progression of tooth and gum problems in dogs and cats
- Reverse the early signs of tooth and gum disease
- Reduces redness around the gum line
- Reduces bad breath quickly
- Ideal as a post-dental to soothe the gums and for at-home maintenance to maintain healthy teeth and gums
- Can be used pre-dental to reduce the bacterial load in the mouth

How to use

- Apply directly to the teeth and gums using the applicator or a finger
- Rub into the teeth and gums
- Apply twice daily for 14 days then as needed ongoing
- Do not apply immediately before or after feeding
